CHARGERS AND BATTERIES ACCESSORIES

EXAMPLES OF KIT

CBT 230Vac Europe

CBT 110Vac USA

CBT 11-30Vdc cigar lighter plug

CBT per 11-30Vdc without cigar lighter plug

CHARGERS AND BATTERIES FAQ

Are the M550 batteries compatible with the new M880 batteries and viceversa?

No, except one case: the AS060 (M550) are interchangeable with the AS083 (M880).

AS060 (M550) can be charged by the CR040(M880) but it is not recommended to charge the AS083 (M880) with the M550 chargers because the charge would be only partial.
